

MANUFACTURING

• 2 0 0 0 •

MANUFACTURING 2000 is a program of New Century Careers made possible through the efforts of area manufacturers, educators, foundations, and the Commonwealth of Pennsylvania.

TURN YOUR SHOP SURPLUS INTO OUR CLASSROOM TREASURES & GET A TAX WRITE OFF

New Century Careers' MANUFACTURING 2000 program has been successful in training over 800 individuals for the manufacturing industry. Most of our graduates come into our program struggling with poverty. Therefore it is important for us to continue to keep our program free of cost to our students.

One of the ways you can help us reach this goal is by turning your company's surplus or waste into a donation to our classroom warehouse. ***Do you have leftover steel from a production buy? Do you have scrap steel you are looking to discard? Have you changed equipment and are sitting on valuable material that we can use to train our students?*** Businesses gain, because materials that you would otherwise warehouse or pay to haul away become tax-deductible donations that are recycled to support our classroom training.

HOW TO MAKE A DONATION

- Take a look at our Classroom Warehouse Wish List.
- If you find items on the list that you think you can donate, contact Michael Cunningham, MANUFACTURING 2000 Training Manager, by calling 412-258-6667 or by e-mailing Cunningham@ncsquared.com.
- Schedule a time to deliver your donation or arrange for a pick-up.
- Receive a tax donation letter you can use for your tax write off. Since New Century Careers is a non-profit organization, donations to the Classroom Warehouse may be considered tax deductible contributions. (Please contact your CPA or tax attorney for more information.)

YOUR DONATION HAS A BIG IMPACT

You will be making an amazing impact that will help us sustain the MANUFACTURING 2000 program which for 10 years has helped the region develop new manufacturing employees. Furthermore, your donation supports the three R's of environmental stewardship...reduce, reuse, recycle.

Thanks for considering this request and for your continued support of the MANUFACTURING 2000 program.

MANUFACTURING 2000 CLASSROOM WAREHOUSE WISH LIST

These are the hottest commodities in our classroom warehouse. No matter how many we have in stock, they are gone in an instant.
